Elena actively participates in the development and support of contemporary dance and performance. After a BA in contemporary dance pedagogy at the Faculty of Music Arts, Skopje, she extended her knowledge with couple of non-formal educational programs (Teaching the Teachers -TTT) and workshops. This year she got the scholarship for danceWEB Scholarship Program, Vienna, Austria, under the mentorship of Tino Sehgal (Germany/UK). Still digging in the “bag” of theory as a place for digging, dedicated and supportive to the collective structures and collaborations, Elena examines different human relationships. She is also committed to work with children and for children and adore their unpredictable reactions and situations.
